SmartArt Overview in PowerPoint 2007 (Part 1)

A. Two Methods to Insert SmartArt

1. Click the *Convert to SmartArt* button under Home Tab.

2. On the *Insert* tab of the ribbon, click on the *SmartArt* button.

3. *Choose a SmartArt Graphic* from the dialog box that will appear on your screen.

Note: If you want to recycle an old presentation, it's good to know that any text placeholder containing bullet points can easily be converted to SmartArt in a flash. Simply *right-click* on the text placeholder and choose *Convert to SmartArt* from the shortcut menu.

B. SmartArt Design and Formatting Tools

To make changes to the *SmartArt graphic*, make sure that the *SmartArt graphic* is selected. This will activate the *SmartArt Tools* button above the ribbon.
